

Australian Hydrographic Office - Wollongong NAVY News Item

HMFEF PR release 18/05
07 Dec 05

CN VISIT TO HMFEF HQ (WOLLONGONG)

CN (VADM Russ Shalders, CSC, AO, RAN) visited the hub of HMFEF activity, the Australian Hydrographic Office in Wollongong, NSW on 01 Dec 05. VADM Shalders was very impressed with the work that the HMFEF is doing and the breadth of activities conducted by the FEG. As he highlighted in his 'clear-lower-deck' address to all the staff, he was "amazed at the changes that have occurred in the AHO since his last visit five years ago".
