IMPORTANT NOTICE

This edition of Notices to Mariners includes all significant information affecting AHS products which the AHS has become aware of since the last edition. All reasonable efforts have been made to ensure the accuracy and completeness of the information, including third party information, on which these updates are based. The AHS regards third parties from which it receives information as reliable, however the AHS cannot verify all such information and errors may therefore exist. The AHS does not accept liability for errors in third party information.

GENERAL INSTRUCTIONS

The substance of these notices should be inserted on the charts affected.

Bearings are referred to the true compass and are reckoned clockwise from North; those relating to lights are given as seen by an observer from seaward.

Positions quoted in notices relate to WGS84 which is the horizontal datum for all charts produced by the Australian Hydrographic Service.

The range quoted for a light is its nominal range.

Depths are with reference to the chart datum of each chart. Heights are above mean high water springs or mean higher high water, as appropriate.

The capital letter (P) or (T) after the number of any notice denotes a preliminary or temporary notice respectively, which are contained separately at the end of the permanent notices.

A star (*) adjacent to the number of a notice indicates that the notice is based on original information.

REPORTING OF DANGERS

Mariners are particularly requested to notify the AUSTRALIAN HYDROGRAPHIC SERVICE, Locked Bag 8801 Wollongong, NSW 2500 (Fax 02-4223 6599, e-mail datacentre@hydro.gov.au or, alternatively by filling in and submitting the [Hydrographic Notes](#) forms located on the web site – www.hydro.gov.au), immediately on the discovery of new dangers or suspected dangers to navigation. For changes or defects in aids to navigation notify AusSAR (Fax 02-6230 6868 or email rccaus@amsa.gov.au).

AUTHORISED USE

Copies of Australian notices are available free of charge from the Australian Hydrographic Service (AHS) website (www.hydro.gov.au) and through the eNotices (email) service (www.hydro.gov.au/enotices/enotices.htm).

Individual Notices may be copied for the purpose of inserting Notice substance on official charts and publications. Paper copies may be printed by chart agents and distributed to customers on a cost recovery basis. Participating chart agents are listed on the AHS website as providing a 'Paper Notices to Mariners' service (www.hydro.gov.au/webapps/jsp/agents/agents-list.jsp). Copies of the notices may not be sold for profit without prior written agreement.

Aus 905 Edition 2	Timor-Leste - Approaches to Suai Plan: Suai	1:25 000 1:15 000	14 July 2017	New edition incorporating new bathymetric data. Chart Aus 905 Edition 1 dated 16 May 2003 is now superseded and must be withdrawn from use.

Chart permanently withdrawn

Charts listed above as withdrawn no longer meet chart carriage requirements and should be marked as "superseded" and replaced with the new chart/ new edition listed prior to passage through the area covered by the new chart.

When placing orders with a chart agent between notice of forthcoming edition and its publication, mariners should advise whether their order pertains to the current edition or the new edition.

For further details refer to the AHS website at www.hydro.gov.au for new edition and new chart stock arrival information.

542 SOLOMON ISLANDS - Solomon Islands chart coverage

Australian Hydrographic Service

With effect from 11th August 2017 the United Kingdom Hydrographic Office (UKHO) will no longer be responsible for the charting of the Solomon Islands. From this date the Australian Hydrographic Service (AHS) will assume the role as Primary Charting Authority. Accordingly, all paper charts previously published by the UKHO will be withdrawn and will now be published by the AHS with an "SLB" prefix and new chart number. The UKHO will adopt, reprint and distribute some of the 'new' SLB charts.

The existing "GB" prefix ENC cells will be withdrawn from service and re-issued by the AHS with an "SB" prefix and new cell number.

Notice to Mariners updates for these charts will now be promulgated by the AHS and reproduced by the UKHO.

UKHO publication NP131 Admiralty Maritime Products and Services Catalogue and AHS Australian Index Charts Aus 5000 and 5001 will be updated in due course.

543 AUSTRALIA - NEW SOUTH WALES - Port Kembla - Wave energy barge removed; nav aids withdrawn
