AUSTRALIAN NOTICES TO MARINERS

Notices 467 - 515

Published fortnightly by the Australian Hydrographic Office

Australian Notices to Mariners are the authority for correcting charts and publications published by the Australian Hydrographic Office covering Australia, Papua New Guinea, Solomon Islands, Australian Antarctic Territory and Timor-Leste.

Commodore S.T. DUNNE RAN Hydrographer of Australia

SECTIONS.

- I. Australian Notices to Mariners, including blocks and notes.
- II. Hydrographic Reports.

SUPPLEMENTS.

- I. Tracings
- II. Cumulative List of Australian Notices to Mariners.
- III. Cumulative List of Temporary and Preliminary Australian Notices to Mariners.
- IV. Temporary and Preliminary Notices in force.

IMPORTANT NOTICE

This edition of Notices to Mariners includes all significant information affecting Australian Hydrographic Office (AHO) products which the AHO has become aware of since the last edition. All reasonable efforts have been made to ensure the accuracy and completeness of the information, including third party information, on which these updates are based. The AHO regards third parties from which it receives information as reliable, however the AHO cannot verify all such information and errors may therefore exist. The AHO does not accept liability for errors in third party information.

GENERAL INSTRUCTIONS

The substance of these notices should be inserted on the charts affected.

Bearings are referred to the true compass and are reckoned clockwise from North; those relating to lights are given as seen by an observer from seaward.

Positions quoted in notices relate to WGS84 which is the horizontal datum for all charts produced by the Australian Hydrographic Office.

The range quoted for a light is its nominal range.

Depths are with reference to the chart datum of each chart. Heights are above mean high water springs or mean higher high water, as appropriate.

The capital letter (P) or (T) after the number of any notice denotes a preliminary or temporary notice respectively, which are contained separately at the end of the permanent notices.

REPORTING OF DANGERS

Mariners are particularly requested to notify the AUSTRALIAN HYDROGRAPHIC OFFICE, Locked Bag 8801 Wollongong, NSW 2500 (e-mail **datacentre@hydro.gov.au** or, alternatively by filling in and submitting the **Hydrographic Notes** forms located on the web site – www.hydro.gov.au), immediately on the discovery of new dangers or suspected dangers to navigation. For changes or defects in aids to navigation notify AusSAR (Fax 02-6230 6868 or email rccaus@amsa.gov.au).

AUTHORISED USE

Copies of Australian notices are available free of charge from the AHO website (www.hydro.gov.au) and through the eNotices (email) service (www.hydro.gov.au/enotices/enotices.htm).

Individual Notices may be copied for the purpose of inserting Notice substance on official charts and publications. Paper copies may be printed by chart agents and distributed to customers on a cost recovery basis. Participating chart agents are listed on the AHO website as providing a 'Paper Notices to Mariners' service (www.hydro.gov.au/webapps/jsp/agents/agents-list.jsp). Copies of the notices may not be sold for profit without prior written agreement.

469 AUSTRALIA - Operational Iridium SafetyCast Services

Australian Maritime Safety Authority

OPERATIONAL IRIDIUM SAFETYCAST SERVICES

The Australian Bureau of Meteorology (as the METAREA X Coordinator) and Australian Maritime Safety Authority (as the Joint Rescue Coordination Centre (JRCC) Australia and the NAVAREA X Coordinator) announce the commencement of operational Iridium SafetyCast Services in Australia from 01 July 2023.

JRCC Australia, NAVAREA X and METAREA X will commence providing search and rescue related information, navigational warnings, meteorological warnings and forecasts on a permanent basis.

Mariners are advised to check their manufacturer's operation manuals to obtain information on the settings for their Iridium SafetyCast receivers.

Further information on broadcast areas for navigational warnings, meteorological warnings and forecasts are available in the Mariner's Handbook for Australian Waters (AHP20) published by the Australian Hydrographic Office (AHO).

487(T)/2023 AUSTRALIA - QUEENSLAND - Shoalwater Bay - Live firing

Maritime Safety Queensland Notice 227(T)/2023

Live firing will be conducted in the marine component of the Shoalwater Bay training area during the period 12 June to 10 July 2023.

A marine danger area extends to all internal waters bounded by the following positions:

```
22° 14'.76 S 150° 20'.31 E 22° 21'.20 S 150° 10'.52 E 22° 35'.87 S 150° 28'.80 E 22° 46'.20 S 150° 55'.05 E 22° 29'.13 S 150° 49'.71 E 22° 19'.92 S 150° 45'.05 E 22° 09'.00 S 150° 37'.00 E 22° 09'.00 S 150° 25'.00 E.
```

All waters, creeks, beaches and other areas within the declared marine danger area are not available for access.

Mariners are advised to keep clear of this area throughout the above times.
