

AUSTRALIAN NOTICES TO MARINERS

Notices 582 - 639

**Including
List of Temporary and Preliminary Notices in force**

Published fortnightly by the Australian Hydrographic Office

Australian Notices to Mariners are the authority for correcting charts and publications published by the Australian Hydrographic Office covering Australia, Papua New Guinea, Solomon Islands, Australian Antarctic Territory and Timor-Leste.

Commodore R.L. PHILLIPS RAN
Hydrographer of Australia

SECTIONS.

- I. **Australian Notices to Mariners, including blocks and notes.**
- II. **Hydrographic Reports.**

SUPPLEMENTS.

- I. **Tracings**
 - II. **Cumulative List of Australian Notices to Mariners.**
 - III. **Cumulative List of Temporary and Preliminary Australian Notices to Mariners.**
 - IV. **Temporary and Preliminary Notices in force.**

IMPORTANT NOTICE

This edition of Notices to Mariners includes all significant information affecting Australian Hydrographic Office (AHO) products which the AHO has become aware of since the last edition. All reasonable efforts have been made to ensure the accuracy and completeness of the information, including third party information, on which these updates are based. The AHO regards third parties from which it receives information as reliable, however the AHO cannot verify all such information and errors may therefore exist. The AHO does not accept liability for errors in third party information.

GENERAL INSTRUCTIONS

The substance of these notices should be inserted on the charts affected.

Bearings are referred to the true compass and are reckoned clockwise from North; those relating to lights are given as seen by an observer from seaward.

Positions quoted in notices relate to WGS84 which is the horizontal datum for all charts produced by the Australian Hydrographic Office.

The range quoted for a light is its nominal range.

Depths are with reference to the chart datum of each chart. Heights are above mean high water springs or mean higher high water, as appropriate.

The capital letter (P) or (T) after the number of any notice denotes a preliminary or temporary notice respectively, which are contained separately at the end of the permanent notices.

REPORTING OF DANGERS

Mariners are particularly requested to notify the AUSTRALIAN HYDROGRAPHIC OFFICE, Locked Bag 8801 Wollongong, NSW 2500 (e-mail datacentre@hydro.gov.au or, alternatively by filling in and submitting the [Hydrographic Notes](#) forms located on the web site – www.hydro.gov.au), immediately on the discovery of new dangers or suspected dangers to navigation. For changes or defects in aids to navigation notify AusSAR (Fax 02-6230 6868 or email rccaus@amsa.gov.au).

AUTHORISED USE

Copies of Australian notices are available free of charge from the AHO website (www.hydro.gov.au) and through the eNotices (email) service (www.hydro.gov.au/enotices/enotices.htm).

Individual Notices may be copied for the purpose of inserting Notice substance on official charts and publications. Paper copies may be printed by chart agents and distributed to customers on a cost recovery basis. Participating chart agents are listed on the AHO website as providing a 'Paper Notices to Mariners' service (www.hydro.gov.au/prodserv/agents-list.htm). Copies of the notices may not be sold for profit without prior written agreement.

Chart permanently withdrawn

Charts listed above as withdrawn no longer meet chart carriage requirements and should be marked as "superseded" and replaced with the new chart/ new edition listed prior to passage through the area covered by the new chart.

When placing orders with a chart agent between notice of forthcoming edition and its publication, mariners should advise whether their order pertains to the current edition or the new edition.

For further details refer to the AHO website at www.hydro.gov.au for new edition and new chart stock arrival information.

605(T)/2025 AUSTRALIA - QUEENSLAND - Broad Sound Channel to Cowley Beach - Military exercise

Department of Defence

Military exercise Talisman Sabre 25 will be conducted as follows:

Cowley Beach

During the period 14 to 16 July 2025, a military exercise will be conducted close to shore with frequent movement of surface connectors and small vessels from ship to shore between positions 17° 47'.71 S 146° 05'.50 E and 17° 35'.93 S 146° 07'.76 E. Mariners are advised not to anchor or navigate within 500m of a defence ship navigating in the area unless otherwise exempted by MSQ or Queensland Police.

Bowen

During the period 17 to 19 July 2025, a military exercise will be conducted in the vicinity of the following positions:

19° 56'.60 S 148° 07'.16 E

20° 00'.32 S 148° 15'.88 E

20° 02'.78 S 148° 13'.82 E

20° 04'.27 S 148° 16'.14 E.

Large military vessels will be operating close to shore and the movement of small vessels between ships and a number of beach landing sites will be unlit at night.

Stanage

During the period 20 to 27 July 2025, a military exercise will be conducted close to shore with frequent movement of surface connectors, hovercraft, amphibious vehicles and small vessels from ship to shore in an area bounded by the following positions:

22° 08'.79 S 149° 59'.93 E

21° 54'.47 S 150° 19'.75 E

22° 03'.51 S 150° 28'.26 E

22° 18'.70 S 150° 09'.40 E.

Mariners are advised not to anchor or navigate within 500m of a defence ship navigating in the area unless otherwise exempted by MSQ or Queensland Police.
