Edition 20

AUSTRALIAN NOTICES TO MARINERS

Notices 843 - 900

**Including
Cumulative List – October 2026
List of Temporary and Preliminary Notices in force**

Published fortnightly by the Australian Hydrographic Office

Australian Notices to Mariners are the authority for correcting charts and publications published by the Australian Hydrographic Office covering Australia, Papua New Guinea, Solomon Islands, Australian Antarctic Territory and Timor-Leste.

Commodore D.G. MULLINS, RAN
Hydrographer of Australia

SECTIONS.

- I. **Australian Notices to Mariners, including blocks and notes.**
- II. **Hydrographic Reports.**

SUPPLEMENTS.

- I. **Tracings**
- II. **Cumulative List of Australian Notices to Mariners.**
- III. **Cumulative List of Temporary and Preliminary Australian Notices to Mariners.**
- IV. **Temporary and Preliminary Notices in force.**

Supplements can be obtained from <https://www.hydro.gov.au/notices-to-mariners>

IMPORTANT NOTICE

This edition of Notices to Mariners includes all navigationally significant information affecting AHO products which the AHO has become aware of since the last edition. All reasonable efforts have been made to ensure the accuracy and completeness of the information, including third party information, on which these updates are based. The AHO regards third parties from which it receives information as reliable, however the AHO cannot verify all such information and errors may therefore exist. The AHO does not accept liability for errors in third party information.

GENERAL INSTRUCTIONS

The substance of these notices should be inserted on the charts affected.

Bearings are referred to the true compass and are reckoned clockwise from North; those relating to lights are given as seen by an observer from seaward.

Positions quoted in notices relate to WGS84 which is the horizontal datum for all charts produced by the Australian Hydrographic Office.

The range quoted for a light is its nominal range.

Depths are with reference to the chart datum of each chart. Heights are above mean high water springs or mean higher high water, as appropriate.

The capital letter (P) or (T) after the number of any notice denotes a preliminary or temporary notice respectively, which are contained separately at the end of the permanent notices.

REPORTING OF DANGERS

Mariners are particularly requested to notify the AUSTRALIAN HYDROGRAPHIC OFFICE, Locked Bag 8801 Wollongong, NSW 2500 (e-mail datacentre@hydro.gov.au or, alternatively by filling in and submitting the **Hydrographic Notes** forms located on the web site – www.hydro.gov.au), immediately on the discovery of new dangers or suspected dangers to navigation. For dangers requiring more urgent communication to other mariners than via the fortnightly Notices to Mariners publication, notify the nearest coastal radio station, relevant port authority, or even AMSA's JRCC (Fax 02-6230 6868 or email rccaus@amsa.gov.au).

AUTHORISED USE

Copies of Australian notices are available free of charge from the Australian Hydrographic Office (AHO) website (www.hydro.gov.au) and through the eNotices (email) service (<https://www.hydro.gov.au/charts/paper-charts/enotices>).

Individual Notices may be copied for the purpose of inserting Notice substance on official charts and publications. Paper copies may be printed by chart agents and distributed to customers on a cost recovery basis. Participating chart agents are listed on the AHO website as providing a 'Paper Notices to Mariners' service (<https://www.hydro.gov.au/charts/distribution-agents>). Copies of the notices may not be sold for profit without prior written agreement.

Chart permanently withdrawn

Charts listed above as withdrawn no longer meet chart carriage requirements and should be marked as "superseded" and replaced with the new chart/ new edition listed prior to passage through the area covered by the new chart.

When placing orders with a chart agent between notice of forthcoming edition and its publication, mariners should advise whether their order pertains to the current edition or the new edition.

For further details refer to the AHO website at www.hydro.gov.au for new edition and new chart stock arrival information.

856 AUSTRALIA - Cumulative List of Australian Notices to Mariners - October 2026

Australian Hydrographic Office

The Cumulative List of Australian Notices to Mariners - October 2026 is issued as an [accompanying supplement](#). It lists all permanent notices affecting charts in the Area of Australian Charting Responsibility published in the preceding two years since Edition 21 of 2024 dated 11 October 2024, and includes Edition 20 of 2026 dated 2 October 2026. It will be revised in April 2027.

A supplement is available on the website which is revised fortnightly.

857(T)/2026 AUSTRALIA - NEW SOUTH WALES - Broken Bay - Military exercise

Department of Defence

During the period 5 to 11 October 2026, a military exercise will be conducted in an area bounded by the following positions:

33° 35'.07 S 151° 20'.05 E
 33° 37'.58 S 151° 20'.50 E
 33° 37'.58 S 151° 28'.00 E
 33° 31'.15 S 151° 32'.40 E
 33° 31'.15 S 151° 25'.25 E
 33° 31'.73 S 151° 24'.23 E
 33° 32'.87 S 151° 20'.75 E
 33° 32'.90 S 151° 18'.65 E
 33° 34'.63 S 151° 18'.50 E.

During the military exercise there will be increased surface vessels and underwater activities/demolitions in the area.

Mariners are advised to navigate with caution in the area and avoid if possible.

Chart temporarily affected - Aus 204 - Aus 809
